CSI Computer Service Moves to a New Location

(LOGAN, Iowa) — CSI Computer Service, Harrison County's local computer repair, supplies and accessories store, has announced today that they have moved to their new location at 112 S 4th Ave in Logan. Most people are familiar with the new location as having been the old Logan Herald-Observer office, and more-recently, the Flower Shoppe.

"It's a little bit off the beaten path, but it provides us with a brighter, larger and open work space. We love that the building has a history too and hope to have a small display celebrating the original building's purpose." says co-owner, Cheri Morris.

CSI Computer Service opened for business a year ago in the old pub, providing computer repair, networking and supplies for local residents. CSI ensures they keep their rates competitive with Omaha, saving customers a trip to the city.

Sam Morris says, "We just want to provide a good service at a reasonable price to the community. I love working on computers and thought it would be fun to open another business."

Sam and Cheri had originally opened Loganet for the same reasons. After moving to Logan ten years ago they found the area was lacking in the Internet Service Provider availability.

After providing affordable service and growing from dial-up to high-speed, Loganet grew too big for Sam and Cheri. They sold the business after six successful years.

"It was hard to sell, but it was best for my family and our customers. We just couldn't keep up with it anymore." Sam says.

"Sam couldn't sit around after work and not have anything to do," says Cheri, "He wanted to open the repair shop for years, and he's the kind of guy that can't sit still. Finally a space downtown became available and we just jumped in."

Hours of operation for CSI are 11 am – 8 pm weekdays, and noon-5 pm on Saturday. CSI is closed Wednesday and Sunday.
